Microsoft Certified System Engineer (MCSE)

Microsoft Certified Professional (MCP)

Alex began his information technology career in Russia. His first employer was Kretor Co, where he was a PC Operator for three years. He then went to Technesis Co. to work as a Network Administrator. Alex moved to Gainesville, FL in July 2003 from Podolsk, Russia, which is in the Moscow region, to be closer to his mother, sister, brother-in-law, and eight year-old niece. In 2004, he began working at SynQuest Laboratories in Alachua where he was a computer scientist for two years.

A desire to work in the medical field attracted Alex to Hospice of Marion County. As the Systems Administrator, Alex troubleshoots the system, including 20-30 servers and various applications utilized by employees. He says his job is to make the end users happy. He is proud to be a part of the Hospice team because he thinks the company takes care of its patients.

Alex enjoys spending time with his family. In his spare time, he enjoys an active lifestyle playing racquetball, soccer, swimming, and going to the gym.
